THE PRIME STANDARD

A legacy *in the making*

Every great culinary experience, every shared meal and every successful kitchen begins with one uncompromising principle: *the source.*

We didn't just start a supply company; we launched a mission to bridge the gap between world-class producers and the discerning tables they serve. In an industry that often moves too fast, we choose to slow down, meticulously vetting every product and every partner that carries the Prime seal.

Our name is our promise. To us, provisions are more than inventory: they are the building blocks of culture and craft. As you leaf through this catalogue, you are looking at a curated portfolio of possibilities, and a partner who will never compromise your standards.

I

Unrivalled curation

We don't stock everything. We stock the right things.

II

Modern integrity

Transparent supply chains, so every product is as ethical as it is exceptional.

III

True partnership

Our clients are collaborators in a shared pursuit of excellence.

"From our heritage roots to our modern, tech-forward distribution, we are here to ensure that your standards are never compromised."

WELCOME TO THE NEXT CHAPTER OF QUALITY

PRIME PROVISIONS GROUPE · IMPORTER · MONTRÉAL

Turkish craft, *North American shelves*

Mission

To develop lasting relationships with Canadian and American retailers seeking high-quality food at advantageous value.

Vision

To become a leading partner for Canadian retailers seeking innovative private-label solutions, or our exclusive national brands.

Objectives

Offer high-quality products at competitive prices, build agreements with major retailers, and pair international quality with excellent availability in Canada.

EXPERTISE

Sourcing Turkish products that meet the highest quality standards and certifications.

Private-label development: full-cycle branding and packaging for major retailers.

LOGISTICS

Import licences, warehousing and transportation.

Turnkey solutions, with deep knowledge of North American supplier portals.

MARKET

High-volume, high-quality snack and confectionery categories in competitively priced retail outlets.

QUALITY

High-level manufacturing that respects the supply chain in a consistent, structured way.
